RUSSIA MAKES GREAT CHANGE

Modification in Internal Policy of Soviets.

PEASANTS PERMITTED TO HOLD THEIR LANDS

All Speculation in Grain Is Now Forbidden.

Important Steps Taken in Past Three Weeks Toward the Resumption of Trade with Non-Soviet Countries.

Riga, April 12.—It becomes more apparent that there has been a great modification in the internal economic policy of the Russian soviet.

Moscow dispatches show that village life has been practically restored to its pre-revolutionary status. A decree promulgated by Lenin authorizes the re-establishment of the Kopr societies in Russia and invites them to aid the soviet government, which they have hitherto opposed.

The cooperatives, who have maintained organizations in England, France and Germany are now discussing the question whether they will accept Lenin's invitation.

The first modification was effected three weeks ago, when the soviet premier permitted the resumption of free trade between peasants and working men and abolished speculation in grain. He also permitted peasants to hold their land for nine years, rescinding the order for land distribution at this time. His recognition of the cooperative societies is regarded as an important step toward resumption of trade with the non-soviet countries. Other decrees issued at Moscow abolish food speculation in the cities and offer an incentive to the people to "go back to the land" and work the farms.

To Secure Release.

Washington, April 13.—President Harding, today, promised to use his efforts to secure the release of Captain Emmett Kilpatrick. American Red Cross worker, whose home is in Alabama and who is now held a prisoner by the Bolshevik forces in Russia.

Congressman Stengall, of Alabama, headed a delegation which urged on the president, today, and called that this government take immediate action to secure the release of Captain Kilpatrick, who is reported to be under a twenty-year prison sentence.

The president promised to take the matter up immediately with the state department and to see that everything possible is done to secure Kilpatrick's release.

FIRE FIRECRACKERS TAKEN FROM ERIE CAR

Now Trio Nabbed Probably Will Be Fired.

A little before 10 o'clock on the night of the Fourth of July was set, resulted in the arrest of three men, Alexander, H. E. Smith and Raymond Pickett, Tuesday afternoon, in the Erie yard. The men are charged as car repairers and a the owner of their work later found the car had been damaged. With no record of committing an offense the men are alleged to have taken some of the fireworks, the value of that being placed at \$4.20.

When the officers of the company arrived they discovered the car was damaged. About the same time they heard something nearby and saw Alexander, Smith and Pickett. They had about some canned tomatoes and tomatoes and had some in their possession. Smith and Pickett pleaded guilty to taking the fireworks from the car and a warrant was issued for their arrest. The hearing being set for this afternoon, Alexander was released and Pickett was taken over to the jail today, as he is not quite sixteen years old.

IS PREPARING NEW PROPOSAL

Germany Has Proposition for the Allies.

WOULD ASSUME ALLIED WAR DEBT

United States To Receive a Certain Part of Receipts from Railway Customs.

Paris, April 13.—Germany is preparing a new offer on the reparations question, the Berlin correspondent of Le Journal telegraphs. He says Germany will propose to assume the allies' debt to the United States, that country receiving in return a certain participation in the receipts from the railway customs.

Germany will also suggest, the correspondent says, that the United States authorize her to place a loan in the United States which would permit the Germans to acquire American raw materials.

La Petit Parisien's Berlin correspondent says Germany is considering the creation of government monopolies of sugar, potato and alcohol and to offer the revenues from these monopolies to the allies.

WITH THE PUGS

Seven-Mile Spin.

George Reichle, of Cleveland, who is to go twelve rounds with Joe Dillon, of Columbus, in the main bout of the athletic show to be staged by the Eagles at the armory, April 25, has settled down to hard training. Reichle takes a seven-mile spin each morning and in the afternoon punches the light and bage, ships the ropes and takes other forms of exercises after which he does the gloves with his sparring partners.

Reichle spars with Cal Delaney, Benny Valger, Matt Brock and others, and finishes his fast boxing feeling fresh. He feels confident that he will be able to take Harry Sullivan's champion over when they meet here on the 25th and the bout promises to be a lively one from the sound of the gong to the finish.

Eddie Conrad, Dunn's flyweight, may also appear on the card here the same time as Reichle, having recovered from his recent illness and now being in training.

Another Victim.

New York, April 13.—Tommy Gibbons, of St. Paul, has added another name to his growing list of knockout victims. Larry Williams of Bridgeport, lost to Gibbons in the fourth round of a scheduled at ten-rounder at the Pioneer Sporting club, last night, when Willie Lewis, who was in Williams' corner, tossed a towel into the ring.

REQUESTED TO CALL ARMY BACK

President is Asked To Bring Americans Home.

RESOLUTION OFFERED IN THE HOUSE TODAY

Emergency Tariff Bill Is Reported to House Today—Anti-Dumping Steps Taken.

Washington, April 13.—President Harding is requested to order the immediate withdrawal of the American army of occupation in Germany by the terms of a resolution introduced in the house, this afternoon, by Representative Hamilton Fish, Jr., of New York.

The resolution declares that the presence of American troops in Germany is contrary to the traditional foreign policy of the United States and that a heavy burden is laid on American taxpayers in supporting the troops, inasmuch as Germany has not been able to support the troops as provided by the treaty.

Tariff Bill.

Washington, April 13.—The emergency tariff bill with the anti-dumping and American valuation provisions, was reported to the house, today, under an agreement of the Republican members of the house ways-and-means committee. Debate on the measure will begin tomorrow.

Representative Young, North Dakota, was authorized to report the bill and will file his report later in the day. A minority report will be filed by Representative Kitchin, Democrat, North Carolina.

The bill introduced, today, differs from the emergency tariff measure of last session. In the anti-dumping and American valuation provisions, it carries a clause which makes the value of foreign goods the basis for collection of duties, which is expected to decidedly increase the duties from Italy, Germany, Austria and several Balkan states and does not materially affect Canada, Great Britain, France, Holland, Scandinavian countries, Cuba or South American states.

Sharp Issue.

Washington, April 13.—Sharp issue was taken with Secretary of the Interior Fall by Senator Kellogg, Republican, of Minnesota, in the senate, today, as to the accuracy of Fall's statement that the present revised Colombian treaty was not unacceptable to former President Roosevelt.

Kellogg inquired how Roosevelt could have signed his approval of the pending treaty when it was not reported from the senate foreign-relations committee until long after Roosevelt's death.

General Amnesty.

Washington, April 13.—President Harding indicated strongly, today, that he will take no action on general amnesty for political prisoners until the United States is formally at peace with the Central powers.

The president received a delegation, which made a plea for general amnesty, but he has the strong indication that he contemplates no action along this line at this time and that he would wait first for a declaration of the end of the state of war before moving with regard to so-called political prisoners.

In Touch.

Washington, April 13.—President Harding has a "thorough grasp" of the railroad situation and understands all the angles confronting the nation's transportation systems, T. Dewitt Cuyler, of the Association of Railway executives, stated, this afternoon, after a conference with the president.

This is the first conference on the railway situation the president has held with representatives of the executives. Cuyler stated that he had informed the president that "working conditions must be improved" before railroad rates can be reduced, but that he would not say whether he had recommended wage reductions nor would he indicate what attitude the president had taken.

The booster class of the First Reformed church, met Tuesday evening at the home of W. J. Brown, of No. 402 Pearl street. It was reported that the sum of \$24 was realized on the concert given by the Heidelberg Glee club recently. This money will be applied to the church building fund. Francis Cowell entertained the guests during the social hour with some slight-of-hand tricks.

DAMAGE NOT AS GREAT AS FEARED

Northern Ohio Will Produce Band of Insurgents Routed by Federal Force.

Some Fruit, Reports Say.

Columbus, April 12.—Damage to crops in northern Ohio was not nearly as great as in other sections of the state during this week's freezing weather, according to reports received by E. C. Cotton, head of the horticultural bureau, state department of agriculture.

Indications are that seventy-five per cent of the apple crop in Lorain county, twenty-five per cent of the pears and fifteen per cent of the plums were saved.

Practically all the commercial crops, however, were destroyed, it seems, in Lawrence, Washington and Galita and Clermont counties. In Lorain and other central Ohio counties, it is claimed, late-blooming apples are fairly safe, but that other fruits were destroyed.

Machine-Guns Used.

Cork, April 13.—Government guards, using machine-guns, today, repulsed a violent attack by Sinn Feiners on the west wing of Cork prison.

DR. FRANCIS FIELDS IS GIVEN DIVORCE TODAY

But Decree Is Held Up for Sixty Days.

ALIMONY AND PROPERTY RIGHTS ARE SETTLED

Suit of Harold C. Williams Against Ernest C. Carl Settled Out of Court.

Francis Fields, a physician residing at Meeker, this afternoon in the common pleas court was granted a divorce from Eleanor Fields on the ground of gross neglect of duty. Settlement of alimony and property rights were approved by the court and the decree withheld for sixty days.

Suit for \$100.45.

Suit for \$100.45 alleged overpayment on two cars of oats was filed in the common pleas court today by Henry D. Gee and Cyrus C. Lewis, a partnership, doing business under the firm name of Gee-Lewis Grain company, against the Marion Grain & Supply company. The suit was filed through Crow & Williamson.

The plaintiff company alleges the defendant shipped two cars of oats to Buffalo, New York, one on October 14. The plaintiff claims it paid \$1.03 on the first car, which was \$40.93 more than the net returns from the oats, and \$58.03 for the second car, which was \$119.52 more than the net returns.

Inkable and Certain.

The Marion Steam Shovel company, through Crislering, Guthery & Streitz, this morning filed in the common pleas court a motion to require the plaintiff to make its motion definite and certain in the suit of John B. Downing and Rodney Downing, partners of the Downing Coal company, against the Steam Shovel company. The coal company is suing for \$244.25 alleged due them for four cars of mine run coal delivered to the defendant company November 15, 1920. The plaintiff claims the coal was contracted for at five dollars a ton at the mine.

Williams-Carl Case Settled.

The case of Harold C. Williams against Ernest C. Carl was settled without record in the common pleas court this morning before trial was begun, though the jury had reported. Williams sued for \$180 alleged due him for a rug sold to the defendant.

GRAND JURY WILL TAKE UP FERRY CASE APRIL 25

Prosecuting Attorney To Ask Court To Call Session.

OTHER CASES TO BE CONSIDERED SAME TIME

Peckingspaugh's Report Shows What Disposition of Shortage Must Be Made When Paid.

Fred W. Warner, prosecuting attorney, this afternoon announced that he expects to ask Judge Grant E. Mouser to call the grand jury in session Monday, April 25, to consider the case of Harry C. Ferry, former county treasurer, now out on bond on a charge of embezzlement.

Mr. Warner stated that he set this date for the reason that he has a number of transcript cases on file that he wishes to have the grand jury consider at the same time the Ferry case is presented.

Payment of the net shortage of \$12,175.06 in the county treasury, for which Ferry is held responsible, now devolves upon the surety company which furnished the former treasurer with his \$50,000 bond when he took office. Steps to collect this money probably will be taken within a short time.

Where Shortage Belongs.

In his report to the state auditor, Examiner A. B. Peckingspaugh points out what disposition should be made of the net shortage for which Ferry is responsible when the money is paid.

Of the \$12,175.06 due the county from Ferry's alleged embezzlements, Mr. Peckingspaugh states \$12,500.56 should be credited to eliminate shortage carried in treasurer's cash; \$157.19 on pay-in order to "Over and Double Payment Fund 1919"; \$35.19 on pay-in order to "Over and Double Payment Fund 1920"; \$38.97 on pay-in order to undivided general tax fund, 1919; \$24 on pay-in order to undivided general tax fund, 1920; and \$119.21 on pay-in order to undivided general tax fund 1920 to be distributed in taxes to Pleasant township, \$32.12; Prospect township, \$5.75; Grand township, \$2.67; Morral union school district, \$2.50; Green Camp township, \$12.58; and Waldo union school district, \$17.51.

Maker Dental.

Washington, April 13.—Secretary of State Hughes, today, denied a story sent out of Washington by a press association, that a reply had been received from Great Britain to this government's recent note on the island of Yap and other mandates.

Mrs. V. C. Smith, of Marion avenue, has returned from Columbus, after an eleven weeks stay, during which time she underwent an operation at the Grant hospital.

FAIR WEATHER FOR BASEBALL

Season Is Opened by the Big Leagues Today.

THOUSANDS OF FANS GREET THE PLAYERS

Multitudes Flock to Grounds in Every City for First Contests of 1921.

New York, April 13.—"Fair and warmer," veterans of many an opening day, took part in the opening of the baseball season here, today, between the Yankees and Philadelphia Athletics. With Mayor John F. Hylan to toss out the first ball and a crowd of more than 35,000 fans on hand, Miller Huggins' 1921 entry into the American league pennant race went into action with the brightest prospects of any New York American league club in baseball history.

Carl Mays, doughty underhand pitcher, was scheduled to pitch for the Yanks, with Waite Hoge, late of Boston and the Athletics, on the receiving end.

Connie Mack was expected to send Scott Perry, his brilliant speed-ball pitcher, against Mays. Perkins was scheduled to catch for Philadelphia.

A Fine Start.

Washington, April 13.—President Harding and the weather man worked together, today, to give the Washington Senators an auspicious start in the American league fight under the new leadership of George McBride. The president will toss the first ball and the "weather man" has contributed a fine spring day.

Vice President Coolidge and other high government officials are to be the guests of Clark Griffith.

General Pershing will raise the flag over the American league park, Chicago, here.

Chicago, April 13.—The easiest way to start an argument in Chicago, today, is to predict that the Cubs will not finish in the first division. Chicago fans are positive that Johnny Evers will lead his revamped Braves to a place among the big four of the National league.

The Cubs and the St. Louis Cardinals will jockey the lid off the season, this afternoon, if the weather does not interfere. The weather looked somewhat doubtful, early today, however, and the forecast was for unsettled weather and probably showers.

No elaborate ceremonies will mark the opening here. No notable will leave the first ball and the only ceremony planned is the raising of a new flag by a squad of U. S. marines.

Grover Alexander, pitching in better form than at any previous season of his career, is to twirl the opener for Chicago. Jess Haines or Ferdie Schupp is expected to be Branch Rickey's nominee for hurling chores for the Cardinals.

In Cincinnati.

Cincinnati, April 13.—All is set for the opening of the National league baseball season here, today, between the Pittsburgh Pirates and the Cincinnati Reds. The weather is delightful, players full of pep and confidence and an immense crowd of fans will witness hostilities.

Adams, for the visitors and Luque, the Cuban wonder, will do the pitching.

Manager Moran will make a specialty of double plays, this season and yesterday, had his men working hard on that angle.

Tigers in Action.

Detroit, April 13.—Imbued with the fighting spirit of Ty Cobb, Detroit's new manager, the Tigers will swing in action against the shattered Chicago White Sox at Navin field, today. And local fandom is on the verge of hysteria. At no time in the history of Navin field has the demand for accommodations been so great.

Every seat in the great stadium has been sold out for weeks and standing room will be at a premium. It was predicted. Conservative estimates place the attendance at 30,000, weather permitting. But the weather man was not smiling on Detroit today.

On the eve of his first battle as a major league leader, Manager Cobb declared his men are in better condition than at any time in the last four years and expressed his confidence in the ability of the Tigers to rise from the cellar berth which they occupied, last year. Leonard and Almsmith will be Detroit's battery; it was learned, while Kerr and Shaik will probably do the honors for the White Sox.

Speakers' Tribe.

St. Louis, April 12.—This Speaker's tribe of champion Indians will invade Sportsman's park here, today, in an effort to swap Lee Fohl's Browns. With both managers declining to issue predictions, two clans of confident athletes are ready for the clash that inaugurates baseball into St. Louis for another season.

Coveleskie is slated to work on the mound for the Indians, while Shocker probably will pitch for the Browns.

Riggs Peterson, a recruit, probably will work the second sack for "Spoke's" tribe in lieu of Wamb.

PRESIDENT PLEDGED CONFERENCE SUPPORT

Resolutions Adopted by Delaware District Conference.

At the closing session of the Delaware district meeting of the West Ohio conference here, Tuesday afternoon, resolutions were passed pledging President Warren G. Harding the one hundred per cent Americanism of the conference in support of the performance of the duties of his office. The resolutions, especially commended President Harding for the firm stand he has taken for the enforcement of the Eighteenth amendment to the constitution of the United States, and the challenge he has given to the churches of America to help solve problems of the nation and world, were heartily accepted. The fall conference will be held at Bellefonte.

ACCOMPLISHING AN ENGINEERING FEAT

Buildinf Weighing 10,000,000 Pounds Being Moved.

Pittsburgh, April 13.—The Joseph Woodrell building, an eight-story office structure, is moving into a new location, today, in one of the country's most startling engineering feats. The building, weighing 10,000,000 pounds, is being moved forty feet to permit widening of the street on which it is located.

Engineers used pulleys and powerful screw springs to bring the structure from its foundation. It will be dropped on twelve concrete pillars. The feat includes retention of 1,200 square feet of sidewalk which is being moved as a part of the building. During the movement, elevator, water, heat and light service was uninterrupted.

TWO MAIL ROBBERS OPERATE IN IOWA

Get Away with a Pouch of Registered Mail Today.

Independence, Iowa, April 13.—Two mail robbers are believed to have obtained a considerable sum of money, today, when they held up C. R. Dodge, station agent for the Illinois Central railway. The bandits fired one shot at Dodge when he did not throw up his hands quickly enough to suit them, seized a pouch containing registered mail and escaped in an automobile. The mail was consigned from Omaha to Independence and is believed to have contained bank remittances.

HOHENZOLLERN PROPERTY SALE

Part of Former Kaiser's Holdings To Be Sold.

Doorn, April 13.—The former Duchess of Brunswick, only daughter of the ex-kaiser, arrived here this afternoon. She was attended only by one lady in waiting. Court Pastor Dryander, who is to conduct the mourning services for the ex-empress, Augusta Victoria, is expected here today.

That part of Wilhelm Hohenzollern's property here, known as Yekelderbosch, will be sold, May 25. The sale was announced today. The reason for the sale was not divulged.

INDUSTIAL STRIFE WILL BE RAMPANT

If Employers Do Not Change Tactics, Says Union Leader.

Indianapolis, April 13.—Tarnell and industrial warfare will be rampant in the United States if "forcible measures" of employers who are making "take it or leave it" wage reductions are continued. William Dobson, secretary of the Bricklayers' Masons & Plasterers' International union, declared, today, in a telegram to Secretary of Labor Davis.

Cleans by Air Alone Royal Electric Cleaner

The Royal Motor is designed to develop high speed and power with low current consumption. Under working conditions the motor revolves at the speed of 9,500 revolutions per minute, producing through the scientifically designed fan, an air current having a velocity of 120 miles per hour. It is thus easy to realize why the Royal, moving air at such a tremendous speed, cleans so thoroughly and quickly.

High motor speed is necessary to develop high air velocity. High air velocity is necessary to efficient cleaning. Only in the Royal are these two features developed to the utmost. The powerful Royal suction whisks every particle of dust and dirt out of your carpets, no matter how deeply it may be ground in, leaving the nap fresh and erect, and restoring the color to their original brightness.

The Royal raises no dust or germs to contaminate the air, and leaves none to be raised after the cleaning operation is completed.

With every Royal Cleaner we give a binding guarantee which absolutely protects the Royal owner against defects in material and workmanship. Thus we prove our faith in Royal Quality.

When you purchase a Royal you do not only have the satisfaction of knowing that you have the best cleaner that money can buy, but that you are absolutely protected in every way.

**APRIL BEGINNING TO
SEEK SPRING'S FAVOR**

**Days Like This Will Help
Gypsies Here.**

The Star's star weather-observing young reporter was willing to begin a new friendship with April today. There might not have been any tinted sunrise—that's a few minutes too early for the ordinary mortal to determine—but as Old Sol continued on his way, the low-hanging clouds were dispelled long before the blinding zenith was reached, and it is to be devoutly hoped that he will pass off into that "vale of mystery" without the weatherman taking a sudden notion to do something that ought not to be done.

No matter what happens, though it's a settled fact now—spring really is here, for the police reporter reports that Gypsies are in town. And "Doc" Raffensberger, Uncle Sam's less than a dollar-a-year-man for the good of the weather-signal service, says Gypsies are always the forerunners of warm weather.

Eagles' Auxiliary Plans for Card Party and Dance To Be Given April 21.

One of the most pleasurable events of the Elks' social calendar for this year was the ladies' party given Tuesday afternoon and evening by members of the lodge in the Elks' hall.

The ladies were entertained during the afternoon with a program after which a dinner and dance were enjoyed.

About 300 women were welcomed by W. N. Harder after which Mrs. Clara Laffer played two pleasing violin numbers. Mrs. Laffer was accompanied on the piano by Mrs. J. C. Woods. Two vocal numbers by Mrs. W. B. Long, accompanied on the piano by Mrs. H. K. Mouton, were well received after which Mrs. Rodney B. Hume entertained the company with a reading Mrs. Hume responded to an encore. A pleasing feature of the program was the group of harp numbers played by Mrs. Lena Phillips which closed the program.

Following the music cards were enjoyed, and at 5:15 o'clock the guests were invited to the banquet hall, where the dinner was served at tables attractively decorated with spring flowers. Pink white and red carnations were given as favors. During the dinner hour, E. W. Owen sang several numbers and W. M. Dusenberry entertained with character songs. William Dowler presided at the piano.

ASK THAT BRACKNEY AGAIN BE APPOINTED

As Superintendent of Delaware District.

"Hindrances to the Progress of the Kingdom" was the subject of two interesting talks at the closing session of the spring district conference of the Delaware district held Monday afternoon and Tuesday at Wesley M. I. church. John H. Clark discussed the subject from the layman's point of view while Rev. W. F. Caster, pastor of Epworth M. E. church, Kenton, gave a splendid talk on the subject from the minister's standpoint. Preceding the talks Mrs. H. H. Freeman, of Prospect gave an address on home mission work in Mexico.

It was unanimously voted at the close of the program that a letter be sent to the presiding bishop William F. Anderson asking that William Mack Brackney of Delaware be reappointed district superintendent of Delaware district. The meeting closed with the singing of the devotions.

Health Is a Woman's Greatest Asset.
Contrast the cheerful happy woman with head erect, the glow of health on her cheeks, the elastic step and bubbling enthusiasm as she goes about her daily tasks, with the woman who suffers from backache, headaches, dragging down palus, nervousness and despondency. Such conditions are undoubtedly caused by woman's ailments, which will yield to Lydia E. Pinkham's Vegetable Compound, which for many years has been restoring weak ailing women to health and strength. Every woman who suffers in this way owes it to herself to at least give it a trial.—Adv.

After an explanation of the present membership drive and club matters to the visitors, President Robert Gunder gave a talk on the history of the wireless. He was followed by Samuel Fife, who spoke concerning present radio accomplishment. Warren Leeka told of the future possibilities of radio.

The new members admitted were Russell Barkalow, Paul Hickey, Fred Flocken, Charles Keeler, Walter Kenney, Florian Moore, Justin Parsell, Harry Selter, Roscoe Thatcher and Harker Thomas.

CITY IN BRIEF

More Help—James Deal and W. L. Marnal are in the office of County Auditor B. C. Decker assisting in the work of receiving tax returns of personal property. They are assistants to R. P. Buzzard and Watson Ireland, assessors.

On Long Hike—Lester Greenway and Roy Luscher, of Paterson, New Jersey, were in Marion this morning enroute to Los Angeles, California. The two young men are walking

from New York City to the Pacific coast and expect to complete the trip in seven months. They left New York March 13 and from Marion went to Kenton. Their route will take them to Chicago, Kansas City and El Paso, Texas.

Marionite's Curio Table.—A curio table on display in the show window of the Hoover-Rowlands store, on south Main street, is attracting considerable attention. The table is constructed of over 4,000 pieces and twelve different kinds of wood the top having inlaid checker and cribbage boards. The table is all hand work and was made by Jacob Bollinger, of this city, who spent over five years in its making, giving it most of his spare time.

Two Doors, Eighteen Tons.—Many people's attention was drawn Tuesday afternoon and this morning to the team of horses of the Merchant's Transfer company drawing a wagon on which were loaded the double doors for the vault of the Marion National bank. There are two double doors and each weighs nine tons, although they are of apparently small construction. The doors are made according to the latest style, are burglar proof and designed to resist drills, acids and fire. They arrived Tuesday from the Merchant company, Dayton, together with 65,000 pounds of steel to be used in the construction of the vault. M. O. Koerber, representing the company, is here looking after the work.

Rodney Roush, of Hampton Roads, Virginia, is home on a ten-day furlough, visiting his mother Mrs. Luella Roush, of No. 137 Kenmore avenue.

The Success of the "EASY"

The decided preference for the "EASY," which is constantly being displayed by housewives, is not mere chance or luck. It is due to the principle upon which it is constructed—*air pressure and suction*.

For the "EASY" VACUUM ELECTRIC WASHING MACHINE does the work of human hands, thoroughly and almost without effort.

The vacuum cups force the hot, soapy water by air pressure through the meshes of the garments and by suction draw it back again. Sixty times a minute this happens with the result that every particle of dirt is promptly and effectively removed. No rubbing, tearing or dragging, or heavy cylinder to lift.

The polished copper tank has a greater capacity than any other electric washing machine. It is placed at just the right height.

The "EASY" is made from best materials obtainable—solid copper, brass, aluminum and enameled steel.

The demand for "EASYS" has become so great that the manufacturers have been compelled to erect one of the largest washing machine factories in the world, with a capacity of 1000 "EASYS" per day.

Give the "EASY" a chance to talk to you in your own laundry without obligation.

Yes, will be mighty glad you did.
